

EQTrace Key WLAN

WLAN-Tracker for industrial trucks

Usage time, Access control, Device position via WLAN

- Current position via WLAN for transport and service
- Access control by electronic key
- Time of use can be recorded by Employee / Department / order / Cost center
- Record and settle usage times
- Alarm function for prohibited use on weekdays, time of the day

Easy to construct. Easy to use.

Truly simple:

- Position of the device via WLAN > fast to detect in industrial plants
- Assembly can be done in a few minutes
- Periodic transfer of collected data
- Position and time of use are available via smartphone or Obserwando.de
- Anti-theft function: Operation at forbidden time gives immediate alarm
- No Flat per device, therefore very low monthly costs
- Personal keys ensure damagefree operation
- Access control via RFID card
- Vehicle users can be queried via Internet / expanded / locked out

Technical Data:

Operating voltage:	Supply via vehicle battery 10VDC – 60VDC
Protection:	IP66
Temperature range:	+70°C / -20°C
Housing dimensions:	L*B*H (mm) = 105 * 73 * 35
